These are some of the questions one frequently hears. No people ever sai better clothed, with better brains, and listened in their churches or Salvation Army Halls to words of more profound vision than we do to-day. How often we hear some one say: "That was a fine address from the Captain or the Adjustant! And the Songsters sang beautifully—but too had no one was saved." And thus it goes on, with possibly an occasional dropping now and again. Why is it?

Why is it?
There is a remedy! What is needed is the Power that came al Pentecost. I have been pairled many times to see so many of my comrades who are seemingly dark as to the real meaning of this Power. And the trouble is they don't seem to feel

their need of it.

The power should be there. It had caused Moses to break the chains that bound the ensisted people of God: that had helped Joshua to be a supported to the control of the such a power.

Their task was a hard one, but this power was adequate. Those disciples who fled and deserted their Master in the hour of His trial hecame after their endument as howe

I personally knew a man who got this power, and it was as if a evelone had struck the town he was in. People said he was crazy, but a great revival broke out in both the Church, and The Army. People trembled in their seats, and the very air seemed charged with Divine power. People Saughed and decided him, but the same people were soon crying to spread over their souls. The hre spread over the place, and out into the country; and a lasting work was I heard a Staff Officer, a short

# This is Backsliders Week—Go After Them!

Some Stirring Stories of

Reclaimed Backsliders

HIS is Backsliders' Week in the Siege for Souls, when special efforts are to be made to reclaim for God and The Army those who once ran well, but for some reason or other are now estranged from their Heavenly Father, and, as a consequence, no longer fight shoulder to shoulder with us to extend God's

shoulder, with us to extend God's Kingdom.
Backsliding may be defined as urning from the path of duty. Sad to say, there are many to be found in every community who are guilty of this offener. Think over the miserable condition they are in; think of what grief they are causing their Lord; think of what a stumbling to the same of the conditions of the saturable of the conditions of the co Lord; think of what a stumbling block they are in the way of others; think of their terrible eternity nu-less they turn done more to Him they have pierced, and cry for-mercy; and then try your numest to get them testored to the joy of God's Salvation. Pray over them, weep over them, plead with them: make a desperate effort to bring them back from the far country whither they have wandered to the dear old fold, where the loving arms of a patient God await to encircle

Some of the causes of hacksliding some of the causes of backsiding are parleying with temptation, the cares of the world, improper associ-ations, neglect of secret prayer, self-conceit and self-indulgence. A back-sliding state is manifested by indifference to prayer and self-examinatiun, trifling or unprofitable conver-sation, shunning the people of God, thinking lightly of sin, and often by

thinking lightly of sin, and often by gross outward indulgences. In questioning many backsliders, however, as to the cause of their de-cline they will often seek to lay the blame on some one else, and a great deal of tact is needed to make them see their mun sin and confess it

Colonel Brengle thus relates how he dealt with a backslider, and his experience may be helpful to soul-fishers in this present Campaign:— "Are you saved? I asked a little woman in one of our prayer

meetings.
"'No, I am not,' she replied with

# Reclamation Week

WAR CRY

This is the weak that has been set apart for the reclamation of backsliders. There are many for whom the appreciation of the world and the devil has been tno strong, and in an evil hour they have deserted the Cross and are now in the ranks of deserters because they did not look to the Strong for strength to enable them to overcome the adversary nf souls. Many of these so deeply feel the shame of their defection that they either stay away from the meetings altogether or attend them, but, fearful of their own weakness, decline to make a fresh start

Now, it is the duty of all the faith ful to do their best to get those who absent themselves from the meetings to attend during the reclamation week. Visit them in their homes; call upon them where they are likely to be found. Apply to them the personal touch, and let them feel that you are deeply concerned about their spiritual restoration. Then again, talk to and pray with thuse who come to the meeting, but refuse to return to their deserted Christ. By personal dealings, by your prayers, by your tears let them also see and feel that you their old-time comrade, together with the rest of the Corps, earnestfy desire that God should restore to them the joys of His Salvation. Only by a sense of personal responsibility can those now outside the fold be brought within. Reader, you have a responsibility in this matter: see that you do not shirk it.

THE installation of Brigadier and Mrs. Adby as Divisional Officers of the Toronto Divi-. sion, was conducted by the Commissioner at the Temple on Thursday night, Nov. 4th. She went un to relate a touching story of a widow who had had five sons killed at the-front, and who had asked the Gov-ernment that her sixth snn might be released from military service in order to support her. He thoroughly believed in the conver-sion of children, he said, and told a pathetic story of a mine accident which served to strengthen that belief.

He then gave a stirring address from the text "He was a burning and a shiring light." Salvationists, he said, must be lights of that description, guiding dark souls into the haven of God's peace.

The Commissioner was in command and this, no doubt, accounted in part for the infectious enthusiasm that prevailed, for when he informed the audience that it was possible that in future his visits to Hamilton would be more frequent than in the past, a veritable tornado of applause greeted the statement. After the Songster Brigades of Nos. I, and III, had given the new Nos. I. and III, had given the new Commanders a taste of she'r qual-ity, and the Hamilton Band had-showed that it had worthly main-tained the high note, of efficiency manifested at the recent Congress Musical Meeting, the Corps Ser-gentt-Major spokeron behalf of the Local Officers, Soldiers, and friends in the Division. Now, there was no uncertain sound whatever about the heartiness of the Sergent-Major's heartiness of the Sergeant-Major's words of welcome, and the manner with which those present applauded his remarks showed that they were in full accord with his sentiments.

Then Adjutant Burton, representing the Field Officers, made a telling little speech, and accurately represented the feeling of the other corps Commanders when he said that they were delighted to have

TN SEEKING the Salvation of souls, we are really seeking the Highest, Every man who acknowledges that he has a soul at at will allow that it is the highest part of his being. Even those who deny that our nature bas anything of immortality, admit that the spirit in man sets him ou high in the world of living things, and is worthy of all that is best in life. And those who etaim for man that he is immortal -that Something in him will, as a fact, continue for ever-demand that the safety, the well-being, and the happiness of that Something is both the deepest need of his life and the highest and most enduring in-

terest of his being. In this matter it is erident that Jesus Christ has gone before. He has preceded us, not only in the recognition of the soul in man, of its value and of its possibilities of blessedness or of woe, but He has goue in advance in seeking its Satvation. He has led the way in this. Bursting all the barriers of the past and leaping over all the boundaries, except the boundaries of sorrow, He has given all He could give, may, all He had, to win men. Race and elime and caste and kindred were My Comrades, I call you afresh to this. It is the world's great heed. It nothing to Him. Neither beauty. nor virtue, nor power on the one hand; nor misery, or weakness, or want on the other, counted anything with Him. In His great quest for the souls of men, He passed by all those things with scarcely a word, mounting up to claim the highest in us when He mounted His Cross. His appeal almust disregards the temporal-the passing and perishing in us, and calls with the Voice Divine to the Eternal part-to cons-

And so let us follow Him, my dear Comrades, in nur quest. We can, I know, only go so far. He gave His soul for the souls of men. We are not asked to do that. He died for the souts of men. Few of us are called to that-at any rate, in the flesh. But He suffered for souls in a thousand ways in which we may suffer. This was one reason for His being truty Man as well as truly God amongst us. He suffered. Anxiety, apprehension, grief for losses, disappnintment in those He had trusted, rebuff and scorn from those He warned-hatred and cruelty by some whom He specially longed to savedoubts and mistrust in some whom He specially blessed and loved-lone liness and desertion when all forsook Him and fled-these are only some of the sufferings Hc bore. Was it not so? And was it not because He sought men's souls? He might have lived differently if He had been content to help men only for the World of Time. He would even then have done a great deal of good

and have become the most popular and nave necome the most popular Romans at first feared would be the ease. But He could not he satisfied with less than rescuing men from sin. No-never! He was a lover of their souls.

To go in this fashion after the souts of all whom we can influence, that would indeed be following Christ. Not merely believing on Him-not merely finding nur own Satvation in Him-not merely resting all our hopes upon Him for the world to come—it would be more than all that; it would be really fotlowing Him. Going alter the deliverance of men's souls, not merety cheering them, or amusing or instructing them, or giving them a tift when down, or making things as agreeable as possible for them, but mounting up to the highest in them, seeing and toving and seeking their souls. That will often mean for us also, being willing to bear their seorn or their mistrust, being ready to suffer their hate or their neglect -il only we can get at their inner man - the everlasting part - the Blood-bought soul.

is The Army's first work. It is every true Salvation Soldier's vocation no matter what may be his earthly ealling. Come along, then, and let us join together not only to suffer with our Saviour on account of the people's sin, but to fight by His side for their redemption. Open your eyes to look on the multitude who are without a shepherd! Open your ears to the cry of the lost as they pass out into the Night-"No man cared for my soul!" Strotch cience—to memory—to faith—to will—to love—in short, to all that out your hand to take the class of pain! Open your heart to the sorrows and despair which are breaking the hearts of those who have no hope! Weep with those who weep and watch with those who watch! This is the way to their souls. Remember what Jesus said about being bread for the hungry and water for the thirsty-about being light for those in the dark and hope for those in despair-about being a friend for those who never knew a friend, or who have lost all the friends they ever had, and about being a brother to those who have no carthly ties. Remember how He talked about opening the doors of the prison and healing the diseases of the sick and bringing the wanderers home and making joy where there never had been joy before! Oh, it will all prove so real and practical if you will only take it and act upon it, and make it personal and immediate for the people you know and meet and amidst whom you actually work and

We are glad to say that The General is making good progress towards recovery from his recent accident. His doctor, while speaking hopefully as to the absence of complications in the knee, will not, however, allow it to be used for at least another week; but all being well, The General will be able to take his meetings announced for Sunday, November 7th.

In the meantime The General, although a prisoner, has been able to transact a good deal of business during the week, and has, with Mrs. Booth, been in conference with the Chief of the Staff, the International Secretaries, and others of our Leaders. POTATO'S GREAT VALUE

WE could better afford to dis-W pease with most other foods than postoses. In other words (writes a medical authority) no one article, or even several articles of food, can take the place of this tuber. It is nearly all starch, and it appears in the form that it is more readily digested than the starch of wheat and other cerasks. The potation is also rich in salts, especially potash. These salts tend to offset

the acids caused from eating meat, thus purifying the blood.

A generous ingestion of potatoes antagonizes arterioselerosis and its antagonizes arteriosederosis and its attendant symptoms. No other one food supplies the alkaline or "blood-purifying" salts so abundantly as the potato. But is is far from being an all-round food. Its protein conan all-round food. Its protein content being flow, this clement must be supplied by milk and eggs and a moditeum of lean meat (says our anthority). A cultinary fact too often ignored is that the salts of the potato lie nearest the skin and for that reason it is preferable that potatoes couled with their "jackets" on.

over four hundred of the thousand that I had ordered when I got your letter, so the only thing left for me to do, to get enough for the hospital and Soldiers I had been paid for, was to go round to my Boomers and take from them those which they had for selling. When I received your letter, out of the fifteen hundred I had received. I had only thirty oppies left. I should have been able to hit the three-thousand mark this year. If you had given me the least idea you were going to be short. I should have ordered before. However, it is gone now. We will do better next year, if we are spired. Trusting this will find you and all well. God bless you. Yours in Him.

This Corps, last year disposed of four hundred copies, this year I have given in my order for one thousand—four hundred more than ever New Glasgow took before. Let every Officer co-operate with you in this competition, and our friends over the boyder will have "No language!" The Pictorial Section is superb and the printing matter is of the highest order, and the same will be read with great interest and profit. It will be a great selfer, and, if I mistake not, the salgsawill exceed this year anything that has ever been attained by its predecessors.
